

Human-centered AI — Follow-up actions

// THE PROMPT

Based on what we created here today, what is a step you can take to test, develop or deepen the framework before the next session? What is within your mandate and available resources? Where do you need help from others in this room?

 Write slowly and in capitals. So we understand the notes later.

 Keep it non-sensitive. Avoid personal data and business-confidential information.

 Make it doable. One or two concrete steps you could actually start soon.
