

Human-centered AI — Framework toolkit

// START HERE

1

Create a free **GitHub** account

2

Tell the research team your **username**

3

We add you as a **collaborator**

IMPORTANT

Never upload sensitive or personal data.

Repositories are shared with the group, and the framework repository is public.

COLLECTING DATA?

Coordinate with the research team first.

So any data collection is ethical, scientific and in accordance with GDPR.

1

Literature review

PUBLIC

The research base behind the initiative: AI and productivity, organizational behavior, society, human-centered AI and governance. **Use it to ground the framework in evidence.**

[github.com/LucidInstitute/Reflexive-AI-Initiative](#) > Literature > README.md

SCAN TO OPEN

2

Framework repository

PUBLIC

The public GitHub repository where we will publish the framework. **Create a GitHub account so we can add you as a collaborator.** Already know GitHub? Please help the people around you get started.

3

Anonymous data already collected

PUBLIC

Use it to **draw inspiration, validate your ideas and test them** against what people actually said. Copies of the data are also available here at the workshop.
