

Informed Consent

Reflexive AI Research Initiative

// PURPOSE OF THE STUDY

This study identifies principles and interventions so that AI is used in ways that motivate and empower employees — not just the organization.

You are invited to take part in a focus group as part of this research.

1 What participation involves

- Share your experiences and opinions on AI adoption in your organization.
- The session is facilitated by someone in your organization.
- Written outputs are shared with the initiative solely for analysis.

2 Risks and benefits

- There are no risks to you.
- Your contributions help shape the societal debate on AI in organizations.

3 Your rights

- Withdraw consent and have your data excluded up to 4 weeks after the session, without giving a reason.
- Ask questions before, during, or after participation.
- Receive a summary of findings on request.

4 Confidentiality and anonymisation

- All responses are anonymised before analysis or publication.
- Recordings and transcripts are stored securely, accessed only by the research team.
- Data is retained in accordance with GDPR.
- No commercially sensitive or personal information is attributed to you.

5 Use of findings

- Findings are released to the global community under a Creative Commons licence.
- Submitted to peer-reviewed journals or scientific conferences.
- Published only in anonymised form; no participant is identifiable.

Declaration of Informed Consent

Please complete the fields below. Your email is optional and used only for a single short follow-up survey — no further emails.

YOUR ROLE IN YOUR CURRENT ORGANIZATION

EMAIL ADDRESS (OPTIONAL — FOR A SHORT FOLLOW-UP SURVEY) DATE OF CONSENT

Yes, I consent.

I agree to participate in the focus group for the Reflexive AI Research Initiative.

Lucid Institute for Organizational Science (LIOS) · Parelmoervlinder 8, 3544DH Utrecht, The Netherlands · research@lucidinstitute.org

Team: Christiaan Verwijs, Karen Eilers, Daniel Russo, Barry Overeem
