

Informed Consent

Reflexive AI Research Initiative

// PURPOSE OF THE RESEARCH STUDY

Help us uncover how organizations can use AI in a human-centered manner.

1 What participation involves

- Share your experiences and opinions on AI adoption in your organization.
- The session is facilitated by a trained facilitator.
- Written outputs are anonymized and scrubbed of business-sensitive information by the facilitator and then shared with the research initiative for analysis.
- Receive a short follow-up survey if you provide your email address.

2 Risks and benefits

- There are no risks to you or your organization.
- Your contributions will help shape the societal debate around AI adoption in organizations.

3 Your rights

- You can withdraw your consent and ask us to exclude your data from any analyses at until 4 weeks after the session, without providing a reason.
- Ask questions about the research at any time before, or after your participation.
- Receive a summary of the research findings on request.

4 Confidentiality and anonymisation

- All responses are anonymised before any analysis or publication.
- Recordings and transcripts are stored securely and accessed only by the research team.
- Data is retained in accordance with applicable data protection regulations (GDPR).
- No commercially sensitive or personal information is attributed to you.

5 Use of findings

- Research findings are released to the global community under a Creative Commons licence.
- Submitted to peer-reviewed academic journals or scientific conferences.
- Published only in anonymised form; no participant is identifiable.

Declaration of Informed Consent

☐ Yes, I agree to participate in the Reflexive AI Research Initiative (reflexiveai.org).

Your role in the organization:

.....

E-mail address:

We only use this for a short follow-up survey.

.....

Your age group:
